**MEMORANDUM**

June 18, 1991

TO: Louise Rufer, L-664

FROM: Joseph C. Farmer

SUBJECT: Acknowledgement of Outstanding Editorial Work

-----

Over the past several months, Dave Gardner has helped us prepare four UCRL reports for publication. Two of these (UCRL-JC's) have been sent to professional journals. Dave's background in chemistry enabled him to make valuable contributions, significantly enhancing document quality. These documents contained numerous mathematical and chemical equations, which made them difficult to edit. Dave coordinated the preparation of art, layout, and final printing flawlessly. I am grateful for Dave's outstanding editorial work and look forward to working with him in the future.
